DETAILED ACTION

Status of the Application

1. Receipt is acknowledged of a responsive amendment, which was dated on July 1, 2005.

Status of the Claims

2. Claims 1-24 were pending. Applicants amended claims 1, 21 and 22. In addition, Applicants added claims 25-27 and canceled claims 8 and 20. Therefore, claims 1-7, 9-13 and 21-27 are currently pending. The Examiner further notes that claim 1 is generic and allowable for the reasons of record. Accordingly, the restriction requirement with regard to the encompassed species is hereby withdrawn and claims 3, 6, 7, 14, 15 and 24 are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

Drawings

3. The Examiner accepts the drawings filed on September 26, 2003.

Examiner's Amendment

4. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this Examiner's amendment was given in a telephone interview with Mr. Matthew Mulkeen on September 13, 2005 (see attached interview summary).

Art Unit: 1639

The application has been amended as follows:

- a. Claims 25-27 are canceled.

Reasons for Allowance

5. The following is the Examiner's statement of reasons for allowance:

The claims are allowed for the reasons that the prior art of record does not teach or fairly suggest applicants' claimed method. Specifically, the closest prior art of record, Kirkpatrick, is does not teach or fairly suggest a second "LG" group selected from the group consisting of "amide, secondary amine, ureido, thiourea, carbamate and sulfonamide" as required by newly amended claim 1. Kirkpatrick only teaches the use of a disulfide. Therefore, claims 1-7, 9-19 and 21-24 (renumbered 1-22) are allowed.
